RECORD OF INTERVIEW SUMMARY

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

On February 22, 2005, a telephonic interview took place between Applicant's representative Karen G. Hazzah and Examiner Annan Q. Shang. Recordation of the following statement of the substance of the interview is respectfully requested.

The Examiner stated that the last response filed by Applicant (mailed September 21, 2004) did not contain an amendment or argument for rejected independent claim 10. Instead, the response incorrectly stated that claim 10 was a dependent claim. Applicant's representative explained that this statement about claim 10 was a typographical error.

The Examiner indicated all other independent claims were allowable. He suggested that incorporating a new element into claim 10, similar to the one added to claims 1 and 9 in the last response, would make claim 10 allowable also. He offered to do this via an Examiner's Amendment.

The Examiner and Applicant's representative agreed on the following course of action. Applicant's representative would fax a proposed amendment for claim 10 to the Examiner. The

Examiner would review the amendment to verify the claim language was in line with what was discussed, and if so, would enter the amendment.

Since all claims would then be allowable, Applicant would next receive a Notice of Allowance along with the Examiner's Amendment. At that time, Applicant would have the opportunity to amend if the entered amendment was unacceptable.

Respectfully submitted,

**THOMAS, KAYDEN, HORSTEMEYER
& RISLEY, L.L.P.**
